

VZ 950 TITAN

High Torque / Slow Speed Shredder

You can have the **ultimate slow speed shredder** in a portable package with the VZ 950 Titan! Grind, crush and shred ceramic, metal, wood and more – **all from a single machine!** Special shaft geometry positions material into the perfect position for processing, then secondary double jawbreakers work with breaker bars to help operators achieve a **more uniform final product size**. In short, the 700 horsepower VZ 950 Titan is the ultimate universal shredder on the market today!

PRODUCE TO SPEC

The VZ 950 Titan is designed from the ground up to be the best universal shredder available. The powerful cutting and shredding action from the standard shafts, or the special paddle shafts help fine-tune the end product to meet your spec. And special spacers designed by Bandit can adjust the side combs to regulate the size of the material as it works through the shredder.

SHRED METAL AND WOOD

Rip, shred and crush a wide variety of material with the VZ 950. No other shredder can handle as wide a variety of materials. Operators can shred metal waste, appliances, building rubble and even whole cars! Then switch to green waste and construction and demolition waste. You can even size your end product based on your need!

OPERATOR FRIENDLY DESIGN

The VZ 950 is designed to be the ultimate shredder for every-day use. Low wear part costs, and easy access maintenance items limit downtime, and the modular design means everything is easy to access. Auto reversing functions protect the cutting and shredding tools, and large infeed hoppers mean operators can feed more material without as much sizing prep work.

TRACK OR WHEELS AVAILABLE

Configure your VZ 950 on a steel track undercarriage or as a towable unit. The tracks make it easy to maneuver on difficult terrain, and the wheels mean it can be quickly moved with the help of a loader or forklift. Either way, the VZ 950 is easy to place on your job site, and ready to run!

COMMITTED TO QUALITY & SERVICE

The Bandit Backbone™ Support

The Bandit Backbone is Bandit's commitment to customer service and support. It's always been a cornerstone of Bandit's philosophy, and today that backbone is stronger than ever. If you own a Bandit hand-fed chipper – regardless the age, hours, or warranty status – the Bandit Backbone is here to support you.

We Are Here to Support You

There are nearly 200 dealer locations in the US and over 60 international dealers to support you. They are factory trained. Plus we have an experienced parts and service department supporting you and our dealers.

VZ 950 FEATURES

- Large Material Hopper**
 The large infeed hopper means larger raw material can be placed in the machine, requiring less prep work
- Powerful Overbelt Magnets**
 Separate iron material from your end product with a powerful magnet
- Powerful Engine Option**
 The track unit is equipped with a 700 horsepower Volvo diesel engine
- Adjustable Shaft Speed**
 Fine tune the shaft speed to allow for the smooth intake of material
- Auto Reverse Function**
 The system will sense the load and automatically reverse the shafts to prevent damage to the cutting tools
- Short Setup Times**
 The shredder can be set up in as little as two minutes and ready to work!
- Limited Wear Parts**
 Maintenance is limited to just a few spots on the machine, and wear items consist of breaker bars, side combs, shafts, blades, blocks and side panels

Bandit Also Offers a Complete Line of Tree Care Equipment:
